PROFILE

Storyboard artist who turns scripts into visual storytelling across film, television and advertising. Most of my work is on children's series and musicals, in team-oriented productions ranging from series to short films and games. I keep storyboard software and processes efficient under tight deadlines and budgets, and I work closely with creative teams to shape narratives and visual languages.

EXPERIENCE

Oinc Filmes · Storyboard Artist 06/2024 - present

10/2025 - present Animatics for a new "3 Palavrinhas" project.

01/2025 - 06/2025 Animatics for the international adaptation of the hit Brazilian series "3 Palavrinhas". Adapted 10 scripts into storyboards for ages 0-4, aiming for engaging, easy-to-read animation.

06/2024 - 09/2024 Storyboards for a highly viewed children's animated series built on music and humor. On a tight budget and schedule, created a coherent, fun and efficient visual language that simplified the pipeline down the line, and refined the narrative with the director for ages 0-4.

52 Animation Studio · Storyboard Artist 03/2025 - 11/2025

10/2025 - 11/2025 Storyboard and animatic for an animated series pitch.

03/2025 - 04/2025 Storyboard and animatic for a series teaser, animated in cutout.

Also an original animatic for a series made for the Kuwaiti market, following a local family on their adventures, and animatics for "Rocky & Nutes".

Pinguim Content · Storyboard Artist 09/2025 - 11/2025

Storyboards and animatics for season 9 of "Show da Luna".

Vaca Amarela Filmes · Storyboard Artist 12/2024 - 04/2025

Storyboards and animatics for a vector-animated children's series focused on Brazilian culture, adapting to the project's established visual language together with directors and producers.

G2E - The Rotfather · Storyboard Apprentice 03/2023 - 02/2025

Storyboards and animatics for an animated web series and a series teaser, animated frame by frame.

Sunshine Cybernetics · 2D/3D Generalist 01/2020 - 12/2020

Concept art, character design and gameplay for new characters in an original IP, adapting existing characters to the art direction. 3D characters and animation, VFX and 2D/3D assets for two games, in step with the game director, programmers and designers.
